

American Journal of ORTHODONTICS

*Official publication of The American Association of Orthodontists,
its constituent societies, and The American Board of Orthodontics*

Editors

B. F. Dewel, D.D.S., *Editor-in-Chief*

708 Church Street, Evanston, Illinois 60201

Earl E. Shepard, D.D.S., *Assistant Editor*

225 S. Meramec Avenue, St. Louis, Missouri 63105

J. A. Salzmann, D.D.S., *Editor of Reviews and Abstracts*

25 Sutton Place South, New York, New York 10022

Constituent Society Editors

Earl O. Bergersen, D.D.S., *Midwestern Society of Orthodontists*

950 Linden Avenue, Winnetka, Illinois 60093

Irving D. Buchin, D.D.S., *Northeastern Society of Orthodontists*

107-21 Queens Boulevard, Forest Hills, New York 11375

Howard H. Dukes, D.D.S., *Southwestern Society of Orthodontists*

Brotherhood Building, Kansas City, Kansas 66101

Thorwald Eros, Jr., D.D.S., *Southern Society of Orthodontists*

3290 Northside Parkway N.W., Atlanta, Georgia 30327

Robert S. Freeman, D.D.S., *Rocky Mountain Society of Orthodontists*

1660 South Albion Street, Denver, Colorado 80222

Paul V. Reid, D.D.S., *Middle Atlantic Society of Orthodontists*

864 County Line Road, Bryn Mawr, Pennsylvania 19010

Richard C. Snyder, D.D.S., *Great Lakes Society of Orthodontists*

3040 East Main St., Columbus, Ohio 43209

Wayne G. Watson, D.D.S., *Pacific Coast Society of Orthodontists*

2021 Ygnacio Valley Rd., Walnut Creek, California 94598

Subject index

A

Adult patient, rationale for esthetic orthodontic treatment in (Baum), 304
 rapid maxillary expansion with corticotomy (Lines), 44

Age, skeletal, assessment utilizing cervical vertebrae, 458 (Abst.)

Allometric growth of skull (McKeown), 412

American Association of Dental Schools and American Speech and Hearing Association issue joint report on tongue-thrust therapy, 465

American Association of Orthodontists, 92, 193, 330, 444, 571, 683
 Association's first program: example of excellence, 330
 Board of Trustees, Councils, and Committees, directory, 241
 celebrates Diamond Anniversary during April meeting, 107
 constituent society presidents discuss current specialty issues, 214, 337 (Editorials)
 constitution, 689 (Editorial)
 from 1900 to 1975; growth of dental specialty, 444
 House of Delegates reference committee hearings, 348
 library, Golden Anniversary: 1925 to 1975, 578 (Editorial)
 remarkable Association accomplishment, (Dukes), 571
 membership totals reach new record highs, 345
 officers and committee members, 76th meeting, directory, 599
 and organizations, directory, 124, 240, 362, 476, 600, 708
 at Las Vegas meeting, 345
 orthodontics' Diamond Anniversary, 101 (Editorial)
 "Orthodontics" program, four new audiovisual sequences planned for, 234
 president and president-elect, Drs. Aldrich and Swinehart installed as, 588
 page: Are we on top of problem? (Muhnic) 98
 seventy-fifth annual meeting, 107
 AAO plans international lounge at Las Vegas meeting, 112
 Diamond Anniversary marks 75 years of achievement, 344
 officers at, 345
 planning complete for Diamond Anniversary celebration, 222
 preliminary program, 193
 reference committee hearings, 348

American Association of Orthodontists—Cont'd
 seventy-sixth annual meeting, Council on Research announces award requirements, 463, 588, 700
 directory of officers and committee members, 599
 New York selected as site for, 699
 then and now: 1900 Society and 1975 Association, 447 (Editorial)

American Association of Dental Schools and ADA discuss education, boards, auxiliaries, and health insurance, 705

American Board of Orthodontics certifies sixty-four candidates during March examination, 683
 written examinations taken by record number of candidates, 109, 230, 347

American Dental Association and AADS discuss education, boards, auxiliaries, and health insurance, 705
 and Boy Scouts issue new badge and manual, 355
 Bureau sets dates for children's dental health week, 109
 Council outlines requirements for dual specialty practice, 687
 House of Delegates approves dual specialty practice, 223
 meeting, FDI schedules Diamond Anniversary celebration during, 701
 national officers, Drs. Kerrigan, Bowyer, and Faust elected as, 230
 reports on fee increases in consumer price index, 350
 sets new policies at 115th session, 112
 sponsors meeting with fifteen other national dental organizations, 470

American Journal of Orthodontics 60 years ago, 91, 102, 175, 329, 453, 562, 686

American Medical Association reaffirms support of water fluoridation, 701

American Society of Oral Surgeons, forms commission on professional conduct, 590

American Society of Preventive Dentistry slates dental prevention meeting, 594

American Speech and Hearing Association and American Association of Dental Schools issue joint report on tongue-thrust therapy, 465

Anchorage fixation, elastic ligatures, binding forces, and; letters to editor, 694

January, pp. 1-124; February, pp. 125-242; March, pp. 243-362; April, pp. 363-476; May, pp. 477-600; June, pp. 601-720.

- Arches, dental, of cleft palate children, early dimensional changes in (Robertson and Fish), 290
 shape of (Lavelle), 176
 Articulation improvement with training cephalometric and intraoral variables as they relate to (Shelton et al.), 423
 Auxiliary personnel, Midwestern Society provides guidelines on use of, 576

B

- Baylor Alumni Association, 223
 Begg technique, vade mecum for (Cadman), 477, 601
 Bimetric system (Schudy and Schudy), 57
 Binding forces, elastic ligatures, and anchorage fixation; letters to editor, 694
 Bite plane therapy, changes in dentofacial complex as result of (Menezes), 660
 Bonding, direct, evaluation of mechanical properties of two recent techniques in vivo, 220 (Abst.)
 systems, orthodontic: in vivo vs. in vitro joint strength comparisons, 461 (Abst.)
 ten systems utilizing polycarbonate brackets, materials evaluation, 460 (Abst.)
 Bone graft material provides potential for growth, 592
 Book reviews, 103
 Boy Scouts and ADA issue new badge and manual, 355
 journal reports details on dental merit badge, 704
 Brackets in bimetric system (Schudy and Schudy), 57
 modified ribbon arch; vade mecum for Begg technique (Cadman), 483
 plastic; rationale for esthetic orthodontic treatment in adult patient (Baum), 304
 polycarbonate orthodontic, load-deformation characteristics (Dobrin, Kamel, and Musich), 24
 ten direct bonding systems utilizing, materials evaluation of, 460 (Abst.)
 Swain Siamese; systematic modification of edgewise therapy (Ackerman and Musich), 162
 British Association of Orthodontists schedules annual conference in September, 591
- C
- Canadian societies sponsor congress on children's dentistry, 593
 Canine retraction: photoelastic study (Baeten), 11
 Caries prevention programs, community, initiated by National Institute of Dental Research, 465
 Cephalofacial characteristics of North American black individuals with sickle-cell disease, 220 (Abst.)
- Cephalometric and intraoral variables as they relate to articulation improvement with training (Shelton et al.), 423
 implant technique, three-dimensional, within-patient reliability of, 584 (Abst.)
 prediction, simplified approach to (Johnston), 253
 Cervical traction therapy of Class II malocclusion in mixed dentition, early or late (Wieslander), 432
 Children's dental health week, ADA Bureau sets dates for, 109
 dentistry, Canadian societies sponsor congress on, 593
 Cleft lip and palate, bilateral, longitudinal study of postoperative changes in soft-tissue profile in, from birth to 6 years (Hannada and Krogman), 363
 orthopedic approach to severe skeletal Class III malocclusion (Irie and Nakamura), 388
 palate children, early dimensional changes in arches of (Robertson and Fish), 290
 widths, changing (Krischer, O'Donnell, and Shiere), 647
 Cleidocranial dysostosis; letters to editor, 217
 Clemson University, International Biometrics Symposium scheduled at, 354
 Computerized prediction (Greenberg and Johnston), 243
 Computers. (See Growth prediction)
 Corticotomy, adult rapid maxillary expansion with (Lines), 44
 Craniofacial changes induced by "orthopedic forces" in *Macaca rhesus* monkey, 585 (Abst.)
 genetics, experimental study using inbred strains of mice, 586 (Abst.)
 skeleton, variability of (Vinkka and Koski), 34
 structures, midsagittal, cephalometric study of, during secondary palate closure in rat, 698 (Abst.)
 Cross-bite, right posterior; exceptional case and exceptional treatment (Hotz), 185
 Crozat Study Club, 594, 703
 Curve of Spee and overbite, method of classifying, and their correlation with dental classification of malocclusion, 462 (Abst.)
 Cuspid retraction, visualization of orthodontic forces during, 583 (Abst.)
- D
- Dental arches, functional relationship; function—fact or fiction (Moss), 625
 of cleft palate children, early dimensional changes in (Robertson and Fish), 290
 shape of (Lavelle), 176
 specialty, growth of; AAO from 1900 to 1975, 444

- Dentistry increasing as choice by women for professional career, 703
- Dentofacial associations, intrafamilial, for Class II, Division 1 probands (Harris, Kowalski, and Walker), 563
- complex, changes in, as result of bite plane therapy (Menezes), 660
- Denver Summer Meeting, 702
- Devlin, Gerard A., Memorial Award, presentation to Stephen C. Hopkins, Sr. (Hedges), 333
- response to (Hopkins), 336
- Dinstemas, maxillary; conservative retention for spaced maxillary central incisors (Chan and Andreasen), 324
- midline, orthodontically corrected (Campbell, Moore, and Matthews), 139
- Down's syndrome, face in, quantitative study (Fink, Madaus, and Walker), 540
- Dysostosis, cleidocranial; letters to editor, 217

E

- Edgewise mechanism; bimetric system (Schudy and Schudy), 57
- therapy, systematic modification of (Ackerman and Musich), 159
- Editorial, AAO constituent society presidents discuss current specialty issues, 214, 337
- orthodontics' Diamond Anniversary: In the beginning. . . , 101
- orthodontists as writers, 692
- the impact of health maintenance organizations (HMO) on health care, 448
- the library's Golden Anniversary: 1925 to 1975, 578
- the Society adopts a Constitution, the Association writes the Bylaws, 689
- then and now: The 1900 Society and the 1975 Association, 447
- Elastic ligatures: binding forces and anchorage taxation, 219 (Abst.); letters to editor, 694
- Emory Orthodontic Alumni Association, 109
- Esthetic orthodontic treatment in adult patient, rationale for (Baum), 304
- European Orthodontic Society, 227, 354, 469, 591
- publishes first 1973 Congress volume, 352, 589
- Evolutionary concepts relating language and morphology of oral complex, 341 (Abst.)
- Extraction of four first premolars in treatment of Class II, Division 1 malocclusion; vade mecum for Begg technique (Cadman), 483

F

- Face in Down's syndrome, quantitative study (Fink, Madaus, and Walker), 540
- Facial changes, computerized prediction (Greenberg and Johnston), 243
- growth; allometric growth of skull (McKeown), 412
- posttreatment change (Singer), 277

Facial growth—Cont'd

- upper, of *Macaca mulatta*, alterations in, resulting from high-pull headgear (Meldrum), 393
- profile changes during normal growth, 457 (Abst.)
- Fédération Dentaire Internationale schedules Diamond Anniversary celebration during ADA meeting, 701
- Fluoridation, water, AMA reaffirms support of, 701
- Fluoride, home applications, orthodontic positioner used for (Trask), 677
- National Institute of Dental Research seeks system for prolonged release of, in mouth, 110
- Foundation and hospital announcements, 110, 234, 356, 468, 590
- French Society of Orthodontists schedules meeting with AAO in Las Vegas, 471
- Function—fact or fiction? (Moss), 625
- mandibular (Perry), 316
- Functional therapy, posttreatment effects of, on monkeys, 459 (Abst.)
- G
- Genetics, craniofacial, experimental study using inbred strains of mice, 586 (Abst.)
- German Orthodontic Society to honor Gustav Korkhaus, 351
- Great Lakes Society of Orthodontists, 113
- Growth, allometric, of skull (McKeown), 412
- bone graft material provides potential for, 592
- dental arch, in three ethnic groups; shape of dental arch (Lavelle), 176
- forecasting, long-range; computerized prediction (Greenberg and Johnston), 243
- simplified approach to prediction (Johnston), 243
- methods, Ricketts and Johnston, statistical evaluation of (Schulhof and Bagha), 258
- normal, facial profile changes during, 457 (Abst.)
- patterns; early dimensional changes in arches of cleft palate children (Robertson and Fish), 290
- posttreatment change (Singer), 277
- upper facial, of *Macaca mulatta*, alterations in, resulting from high-pull headgear (Meldrum), 393

H

- Headgear, high-pull, alterations in upper facial growth of *Macaca mulatta* resulting from (Meldrum), 393
- in bimetric system (Schudy and Schudy), 57
- Health maintenance organizations (HMO), impact on health care, 448 (Editorial)
- Help sought in search for missing patients, 470, 593
- Honors, awards, and appointments, 351, 467, 704

I

Implant, three-dimensional cephalometric technique, within-patient reliability of, 584 (Abst.)

In memoriam, Philip Edwin Adams, 579

Hubert Turner Gosney, 455

Harry E. Jerrold, 580

James W. Jones, 455

Daniel A. Mitchell, 580

Norborne F. Muir, 456

Herbert J. Ross, 581

Irwin N. Tekulsky, 581

Mabel F. Thomas, 582

James M. Toda, 454

Donald Raymond Wofford, 454

Incisors, maxillary central, spaced, conservative retention for (Chan and Andreassen), 324

Index, P/O; letters to editor, 450

International Biometrics Symposium scheduled at Clemson University, 354

International Orthodontic Congress, third, first volume of Congress papers now being distributed, 352, 589

Interproximal stripping, more on; letters to editor, 452

Intraoral and cephalometric variables as they relate to articulation improvement with training (Shelton et al.), 423

Italian Society of Orthodontics, 351, 466

J

Japan Orthodontic Society, 702

Jaw disharmony, "Wits" appraisal of (Jacobson), 125

K

Korkhaus, Gustav, to be honored by German Orthodontic Society, 351

L

Lancaster Cleft Palate Clinic, 467, 592, 704

Language and morphology of oral complex, evolutionary concepts relating, 341 (Abst.)

possible mechanism for genetic component of, 342 (Abst.)

Letters to editor, 217, 450, 694

Ligatures, elastic: binding forces and anchorage taxation, 219 (Abst.); letters to editor, 694

Lip surgery; changing cleft widths (Krischer, O'Donnell, and Shiere), 647

Load-deformation characteristics of polycarbonate orthodontic brackets (Dobrin, Kamel, and Musich), 24

M

Malocclusions, Angle Class I, II, and III, pantographic and cephalometric comparison of patients with, 218 (Abst.)

Class II, Division 1; changes in dentofacial complex as result of bite plane therapy (Menezes), 660

Malocclusion, Class II—Cont'd

early or late cervical traction therapy of, in mixed dentition (Wieslander), 432

Division 1, intrafamilial dentofacial associations for probands (Harris, Kowalski, and Walker), 563

treated, long-term statistical study of, 697 (Abst.)

treatment involving extraction of four first premolars; vade mecum for Begg technique (Cadman), 483

Class II, severe skeletal, orthopedic approach to (Irie and Nakamura), 377

dental classification of, method of classifying overbite and curve of Spee and their correlation with, 462 (Abst.)

unusual; exceptional case and exceptional treatment (Hotz), 185

Mandibular function (Perry), 316

Maxillary expansion, rapid, in adults, with corticotomy (Lines), 44

Mexican Association of Orthodontics, 353

Middle Atlantic Society of Orthodontists, 117

Midline diastemas, orthodontically corrected (Campbell, Moore, and Matthews), 139

Midwestern Society of Orthodontists, 348

provides guidelines on use of auxiliary personnel, 576

Molars, mandibular third, in postretention orthodontic patients, 584 (Abst.)

Mongolism; quantitative study of face in Down's syndrome (Fink, Madaus, and Walker), 540

Muscles, activities between; function—fact or fiction (Moss), 625

differences in, between normal occlusion and malocclusion; function—fact or fiction (Moss), 625

lateral pterygoid, electromyographic investigation, 696 (Abst.)

N

National Institute of Dental Research initiates community caries prevention programs, 465

seeks system for prolonged release of fluoride in mouth, 110

study revives early interest in "rhinology" and orthodontics, 700

New York University Alumni Association, 467, 593

News and comment, 107, 222, 344, 463, 588, 699

Northeastern Society of Orthodontists, 224

O

Open-bite, anterior, cephalometric analysis and suggested treatment procedures (Nahoum), 513

exceptional case and exceptional treatment (Hotz), 185

Oral complex, evolutionary concepts relating language and morphology of, 341 (Abst.)

- Orthodontic brackets, polycarbonate, load-deformation characteristics (Dobrin, Kamel, and Musich), 24
- direct bonding systems; in vivo vs. in vitro joint strength comparisons, 461 (Abst.)
- forces, visualization of, during cuspid retraction, 583 (Abst.)
- patients, postretention, mandibular third molars in, 584 (Abst.)
- positioner used for home fluoride treatments (Trask), 677
- relapse; posttreatment change (Singer), 277
- therapy, effect on certain types of periodontal defect, 695 (Abst.)
- treatment, esthetic, in adult patient, rationale for (Baum), 304
- stability of self-concept during, and relationship between self-concept and patient cooperation, 221 (Abst.)
- Orthodontics, continuing education courses sponsored by university dental schools, 119, 235, 356, 472, 594, 705
- in daily practice, 103 (B. rev.)

 Function regulator, technique and utilization of, 341 (B. rev.)

G

- Genetic disorders, prenatal diagnosis, 460 (Abst.)
 engineering, 100 (Abst.)
 Great Lakes Society of Orthodontists, 352, 466
 Grinding, remodeling of teeth by (Zachrisson and Mjör), 545
 Growth hormone, high plasma immunoreactive, cephalometric measurements of familial dwarfism and (Konfino, Pertzalan, and Laron), 196
 palatal, studied on human autopsy material (Melsen), 42
 prediction, mandibular, arcual growth with metallic implants in (Mitchell, Jordan, and Ricketts), 655

- H**
- Hand, solitary benign enchondroma of, discovered during orthodontic examination (Matteson et al.), 426
- Handicapped persons, dental care for, HEW mails survey on, 468
- Help sought in search for missing patients, 113, 234, 467, 592, 694
- Hemophilic patient, orthodontics and dentistry for (Grossman), 391
- Honors and awards, 108, 474
- Hyoid positioning during deglutition following forced positioning of tongue (Cuozzo and Bowman), 564
- I**
- Implants, metallic, arcial growth with, in mandibular growth prediction (Mitchell, Jordan, and Ricketts), 655
- In memoriam, William J. Brockington, 680
Joseph J. Dickstein, 679
Marion A. Flesher, 681
George H. Siersma, 680
Walter G. Spengeman, 679
- Incisor crowding; Irregularity Index (Little), 554
mandibular, effect of edgewise treatment and retention on (Kuft'neec), 316
- Indian Orthodontic Society, 232, 355, 466
- International conference in orthodontics, second, 345
- International Congress for Handicapped, 350
- International Orthodontic Congress, 1926; another orthodontic first, 212 (Editorial)
- third; European Orthodontic Society publishes first 1973 Congress volume, 108
- Volume II of 1973 Congress Transactions to be released this fall, 226, 348
- Irregularity Index: quantitative score of mandibular anterior alignment (Little), 554
- J**
- Japan Orthodontic Society, 104, 229, 350
- K**
- Ketcham, Albert H., Memorial Award, presentation to T. M. Graber (Mayne), 439
response to (Graber), 441
to Robert M. Ricketts (Rathbone), 434
response to (Ricketts), 437
- L**
- Laboratory procedures; cost analysis of orthodontic in-office and commercial laboratory output (Biggerstaff, Smith, and Mitry), 179
- Lancaster Cleft Palate Clinic, 221
- Letters to editor, 94, 214, 347, 458, 676
- M**
- Malocclusion, Class II cross-bite, Begg light-wire treatment of severe (Menezes), 420
- Malocclusion, Class II—Cont'd
differential diagnosis and clinical application of activators, extraoral traction, and fixed appliances (Pfeiffer and Grobety), 499
- Division 1, nonextraction treatment with Begg technique (Cadman), 481
- tandem concept in nonextraction treatment of (Philip), 119
- different extractions for different (Brandt and Safirstein), 15
- Mandible, adaptation of, in children with adenoids (Koski and Lähdemäki), 660,
- Mandibular anterior alignment, quantitative score of; Irregularity Index (Little), 554
changes incurred secondarily by patients treated with Risser jacket for spinal scoliosis, 216 (Abst.)
- condyle, schemes of zonation in (Beresford), 189
- growth prediction, arcial growth with metallic implants in (Mitchell, Jordan, and Ricketts), 655
- Mastication, muscles of, in small children: electromyographic analysis (Vitti and Basmajian), 412
- Masticatory function, changes in, after surgical treatment of mandibular prognathism, 459 (Abst.)
- Maxillofacial prosthetics, fundamentals, 97 (B. rev.)
- Maxillomandibular dysplasias, diagnosis and treatment (Converse and Coccaro), 625
- Medicine not a business, 462 (Abst.)
- Mesiodistal crown dimension of permanent dentition of American Negroes (Richardson and Malhotra), 157
- Metallic implants, arcial growth with, in mandibular growth prediction (Mitchell, Jordan, and Ricketts), 655
- Mexican Americans, cephalometric evaluation of, using Downs and Steiner analyses (Garcia), 67
- Middle Atlantic Society of Orthodontists, 226, 346, 468, 588
- Midwestern Society of Orthodontists, 225, 350
- Milwaukee brace or Risser jacket therapy, pathologic changes in temporomandibular joints of patients who have undergone, 216 (Abst.)
- Molars, mandibular, clinical management of (Canut), 277
- Motivation, plaque-control, in orthodontic practice (Gold), 8
- Muscles, function; research on variation in dental occlusion (Isaacson et al.), 247
of mastication in small children: electromyographic analysis (Vitti and Basmajian), 412

N

- National Institute of Dental Research
finances two studies on children's
dental reactions, 591
seeks craniofacial anomalies grant appli-
cations, 345

230, 353

O

- Occlusion, dental, research on variation in
(Isaacson et al.), 241
Oral anatomy, 684 (B. rev.)
Orthodontic abstracts, new volume of, issued
by ADA, 585
approach to surgical problems (Moss), 363
examination, solitary benign enchondroma
of hand discovered during (Mat-
teson et al.), 426
force, optimum, theory as applied to canine
retraction (Nikolai), 290
movement, attempted in presence of
suspected ankylosis (Mitchell and
West), 404
ultrastructural vascular changes in pres-
sure zones of rat molar peri-
odontium incident to, 460 (Abst.)
positioning and surgical uncovering of
unerupted maxillary canines (von
der Heydt), 256
practice, plaque-control motivation in
(Gold), 8
rubber bands, multiple, severe bone loss in
child initiated by, 100 (Abst.)
services, AAO study of availability of, 326
treatment, discontinuation of, relative to
patient age, 582 (Abst.)
Orthodontic Education and Research Founda-
tion, 689
Orthodontic Society of Yugoslavia, 474
Orthodontics and dentistry for hemophilic
patient (Grossman), 391
continuing education courses sponsored by
university dental schools, 115, 236,
355, 475, 593, 699
early accomplishments in establishing
merit awards, 451 (Editorial)
for undergraduates, 682 (B. rev.)
interceptive, activator in, 343 (B. rev.)
Orthodontists: supply and demand, 96
(Letters to editor)
Orthopedic correction, craniomaxillary, with
en masse dental control (Thurrow),
601

P

- Pacific Coast Society of Orthodontists, 228,
234, 586
Pain, facial, symptoms, 94 (Letters to editor)
more on, 676 (Letters to editor)
Palatal growth studied on human autopsy
material (Melsen), 42

- Patients, orthodontic; plaque-control motiva-
tion in orthodontic practice
(Gold), 8,
Phosphoric acid, 50 per cent, use as etching
agent in orthodontics (Retief),
165
use in direct bonding on impacted teeth
(Nielsen, Prydsø, and Winkler),
666
Physician care, field experiment to evaluate
various outcomes of continuity of,
460 (Abst.)
Plaque-control motivation in orthodontic
practice (Gold), 8
Population and number of dentists, growth
in, to 1985, 463 (Abst.)
Practice announcements, 116, 239, 359, 479,
599, 703
Preventive encounters and psychological cor-
relates, 461 (Abst.)
Prognathism, mandibular, changes in masti-
catory function after surgical
treatment of, 459 (Abst.)
Prosthetics, maxillofacial, fundamentals, 97
(B. rev.)

R

- Radiology for dental auxiliaries, 98 (B. rev.)
Remodeling of teeth by grinding (Zachrisson
and Mjör), 545
Retention, edgewise treatment and, effect on
mandibular incisors (Kuftinec),
316
Risser jacket, mandibular changes incurred
secondarily by patients treated
with, for spinal scoliosis, 216
(Abst.)
or Milwaukee brace therapy, pathologic
changes in temporomandibular
joints of patients who have under-
gone, 216 (Abst.)
Rocky Mountain Society of Orthodontists,
230, 697
Root resorption during Begg treatment
(Goldson and Henrikson), 55
Rubber bands, orthodontic, severe bone loss
in child initiated by multiple, 100
(Abst.)

S

- Schools, societies, and foundations, 112, 353
Scoliosis, pathologic changes in temporo-
mandibular joints of patients who
have undergone Risser jacket or
Milwaukee brace therapy for, 216
(Abst.)
spinal, mandibular changes incurred second-
arily by patients treated with
Risser jacket for, 216 (Abst.)
Skeleton, craniofacial, variability of (Vinkka,
Koski, and McNamara), 1
Slate conference (Aldrich), 323
Societies, hospitals, and foundations, 471,
590, 689
